Circular Economy and New Opportunities - Resource Efficient, Clean Production and Eco-Innovation for Small and Medium Enterprises

Information meeting with expert -trainees

Agenda

[October 22, 2020]

Start: 11:00
End: 12:30 p.m.

Format: Online meeting (by skype)

Language: Georgian

Information meeting with expert- trainees
22.10.2020
11:00 (GMT+4)
Format (online)

Background

Circular Economy and New Opportunities-Resource efficient, Clean Production and Eco-Innovation for Small and Medium-sized Enterprises is an EU regional project (EU4Environment) Which is implemented in six EU partner countries.

The main direction of the project is to promote the large-scale introduction of resource-efficient and clean production (RECP) and eco-innovative methods in enterprises by increasing production efficiency, improving environmental management and developing human potential.

Meeting objectives, expected outputs and outcomes

The participants of the meeting will get acquainted with:

- Circular Economy and New Opportunities - Resource Efficient, Clean Production and Eco-Innovation for Small and Medium Enterprises Project Objectives and Activities;
- Sharing experiences;
- Internship Program Overview
- Internship program calendar plan

Supporting Documents

Presentations

- Project goals and objectives, planned activities and expected results.
- Success Study - The UNIDO Resources Efficient and Cleaner Production (RECP) Demonstration Project (2014-2017)
- Detailed description of the resource-efficient and clean production internship program (Training Modules)
- Project Implementation workplan

Participants

- Project team
- Expert- trainees

Practical Information

Online meeting via Skype

About EU4Environment

The European Union (EU4Environment) aims to assist six partner countries (Armenia, Azerbaijan, Belarus, Georgia, Mopldova and Ukraine) in preserving natural capital and increasing human environmental well-beingBy promoting environmental action, opening and demonstrating green growth opportunities, establishing improved environmental risk and environmental impact management mechanisms.

EU4Enironment The program is funded by the European Union and implemented by five partners: the Organization for Economic Co-operation and Development (OECD), the United Nations Economic Commission for Europe (UNECE), the United Nations Environment Program (UNEP), the United Nations Industrial Development Organization (UNIDO), and the World Bank.

Program implementation period: 2019-2022 and its budget is approximately 20 million euros.
